Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant propose to add the limitation of "selectively targeting the storage elements that include the copy of the object to be updated by" to claim 1. The Examiner points out that the same limitation has been presented in Claim 18, which is rejected under 102 as being anticipated by the reference, thus adding the same limitation to claim 1 is not likely to help overcoming the reference. The Examiner also explains why the reference teaches the recited limitations of claim 1. The Examiner further suggests that the differences between the application and the reference be clearly recited in the claims in order to overcome the reference..
